There will be a short volunteer training on Tuesday, September 27th from 9:00am to 9:30am. We welcome those that would like to volunteer at Hartley this year to attend. We will have more information about requested volunteers at this training.

PTO's Trunk or Treat is coming up at the end of October. We will be requesting families to bring in wrapped, pre-packaged candy in October for the trunks to pass out. Bags of candy can be dropped off at the front office or sent with your child to school. Thank you for supporting our school!

Congratulations!

Hartley wants to wish Ms. Sloat a very happy retirement! We are thankful for her dedication and time to Hartley! Ms. Sloat's last day is September 30th!

Understanding Florida Assessment of Student Thinking (FAST) Reports for Families

Introduction

For the 2022–2023 school year, all Florida schools will transition to the Florida Benchmark for Excellent Student Thinking (B.E.S.T.) content standards and to the Florida Assessment of Student Thinking (FAST) for Grades 3–10 ELA Reading and Grades 3–8 Mathematics. Please see the [FAST Grades 3–10 Fact Sheet](#) for more information on the FAST program.

There will be three progress monitoring (PM) windows for FAST:

- **PM1** – because this administration occurs at the very beginning of the school year, it is designed to provide a baseline score so teachers can track student progress in learning the B.E.S.T. Standards from PM1 to PM2.
- **PM2** – this administration will provide a mid-year score to compare to the baseline score from PM1.
- **PM3** – this last administration will provide a summative score that will accurately measure student mastery of the B.E.S.T. Standards at the end of the school year.

The dates for each PM window can be found in the [2022-23 Statewide Assessment Schedule](#).

Scale Scores and Achievement Levels

For the 2022–2023 school year, FAST ELA Reading and Mathematics provisional Scale Scores and achievement levels will be linked to the 2021–2022 score scale and **standard setting** will begin in Summer 2023 to establish a new FAST scale. The scales on which students receive scores differ by grade and subject. Achievement levels describe a student’s success with the content assessed. As required by state law, achievement levels range from 1 to 5, with Level 1 as the lowest and Level 5 as the highest. For all assessments, Level 3 indicates on-grade-level performance.

PM1 and PM2 Scores

Each progress monitoring test covers the full “test blueprint,” meaning that all content expectations for that subject and grade level are assessed. Therefore, for PM 1 and PM2, your student may not yet be at grade level; however, this does not necessarily indicate that a student is not on track to succeed. It is important for teachers and families to understand that score information is intended to provide baseline and mid-year results for PM1 and PM2 respectively. These results are for informational purposes only and should be used to identify areas that may need additional instruction and support. These results should not be considered student achievement designations.

PM3 Scores

PM3 provides a summative score at the end of the year to measure student mastery of the grade-level content standards. The PM3 student report [will](#) show a student’s performance for all three windows for comparison, if the student participated in each PM opportunity.

Scale Score Ranges for Each Achievement Level

| Assessment | Level 1 | Level 2 | Level 3 | Level 4 | Level 5 |
|---------------------|---------|---------|---------|---------|---------|
| Grade 3 ELA Reading | 240–284 | 285–299 | 300–314 | 315–329 | 330–360 |
| Grade 4 ELA Reading | 251–296 | 297–310 | 311–324 | 325–339 | 340–372 |
| Grade 5 ELA Reading | 257–303 | 304–320 | 321–335 | 336–351 | 352–385 |
| Grade 3 Mathematics | 240–284 | 285–296 | 297–310 | 311–326 | 327–360 |
| Grade 4 Mathematics | 251–298 | 299–309 | 310–324 | 325–339 | 340–376 |
| Grade 5 Mathematics | 256–305 | 306–319 | 320–333 | 334–349 | 350–388 |
